

Landscape Rebate Programs

AMWC is offering rebates of up to \$500 to homeowners who replace their lawns with water-efficient landscapes.

To encourage landscaping changes that will significantly reduce water use for years, AMWC offers rebates to shareholders who replace their lawn with water-efficient landscaping. AMWC has also implemented additional rebate programs aimed at reducing landscape irrigation, including retrofitting conventional pop-up sprinkler nozzles and replacing irrigation controllers with more efficient devices.

Landscape Rebate Programs

Program	Rebate Amount	Max Rebate	Notes
Turf Conversion – Convert existing areas of turf grass to drought-tolerant plants, synthetic turf, or permeable paving. Existing lawns must be in good condition and irrigated by an existing sprinkler system in good working order.	\$0.25/sf	\$500 SFR, \$1,000 MFR, COM, LS	SFR = Single-Family Residential, MFR = Multi-family Residential, COM = Commercial, LS = Landscape
Low Precipitation Rotary Sprinkler Nozzles – Replace pop-up spray head nozzles with matched precipitation rotary nozzles to reduce irrigation run-off	\$1/nozzle, \$9 min.	\$100	Multi-stream nozzles must not exceed a maximum application rate of 1” per hour.
Smart Irrigation Controllers & Soil Moisture Sensors – Replace conventional irrigation controllers with controllers that use local weather-based sensors and only water when needed	\$100	\$100	Only pre-qualified equipment, as determined by a Water Conservation Staff, shall qualify for a rebate.

How do I Participate?

- Step 1:** For additional information, Landscape Rebate Program Terms and Conditions, or to schedule a pre-inspection, contact Conservation Staff at 461-7217, x22, or email conservation1@amwc.us. Pre-inspections are required for all rebates.
- Step 2:** If your project qualifies, AMWC will initiate a rebate application for and you will be provided a copy. You have 120 days to complete your project after you receive the application.
- Step 3:** Upon completion of your project, call AMWC for a post-inspection. For sprinkler nozzle retrofits and controller replacement, have a copy of your receipts available. Rebates over \$150 will receive a check, checks will be mailed within 10 days of the post-inspection. Rebates of \$150 or less will be credited to the shareholders water account.
