I understand that AMWC reserves the right to deny permission to drill and use any new or replacement private water well within the AMWC service area. AMWC may deny its permission to drill and use such wells if, in AMWC's sole discretion or opinion, the well may have a potential adverse impact on the quantity, quality, or recharge of the groundwater resources of AMWC. If AMWC decides to grant its permission to drill a new well or a replacement for an existing well, I understand that I will be required to enter into a written agreement with AMWC before drilling the proposed well. I further understand that the agreement will be recorded against the real property on which the well is drilled. I understand that private water wells within the AMWC service area are subject to conditions and restrictions imposed by the AMWC Board of Directors, which restrictions and conditions are subject to change from time-to-time without notice. I understand that if a water main fronts or is otherwise available to serve the property, I will be required to connect to the AMWC water system, and pay all fees required for such connection, before drilling the proposed well.
